

Capture System Chart

(CaptureSystemChart.exe)
Technical Services Tool

Date	December 21, 2010
Revision	1.0

Capture System Chart Overview

Capture System Chart is quick visual way to get an idea of the status of a Kofax Capture system. It does this by showing a pie chart of how many batches, documents, or pages are in each module. Optionally it can be separated further, grouping by module and batch status.

Run CaptureSystemChart.exe from anywhere on a system where Kofax Capture is installed.

Features

- Pie chart grouping by modules with or without batch status for:
 - Batches
 - Documents
 - Pages
- Total number of batches, documents, and pages in the system
- Requires either:
 - .NET 4.0 – or –
 - .NET 3.5 SP1 and Microsoft Chart Controls:
